GREEN CAMPUS P

A Green Campus is a place where environmentally friendly practices and education combined to promote sustainable and eco-friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture and developing new paradigms by creating sustainable solutions to environmental, social and economic needs of the mankind.

College Environmental Policy and its Aims and objectives

- The college is striving to develop its institution on a self sustainable in the areas of power, water, and hygiene.
- The faculty, staff and students must contribute collectively to develop an eco friendly sustainable campus and disseminate the concept of eco – friendly culture to the nearby community and wherever possible.
- Awareness creations about environmental issues among students and employees including climate change.
- Measure and reduce environmental emissions/ footprint.

In pursuing our policy of improved environmental issues, we develop following major areas:

Waste Management

- Increase the green cover in and around the campus.
- Adopt methods for waste segregation
- Take appropriate actions to reduce or recycle municipal waste inside the campus.
- Manage, collect and dispose e-waste appropriately
- Reduce hazardous waste and its management
- Actions taken to reduce consumption of plastic in the campus.
- Encourage paperless work culture and recycling/ reuse of paper.
- Display waste management instructions at prominent locations in the campus.

WOMEN (Autonomor JMJ COLLEGE FOR

JMJ COLLEGE FOR WOMEN (AUTONOMOUS), TENALI-522202, GUNTUR DT.A.P.

Water Management

Adopting following measures in campus to reduce water consumption

- Grey water in flushes
- Rain water harvesting
- Use of recycled water for watering plants, trees etc
- Display water management instructions/alerts at prominent/relevant locations in the campus.

Climate Change

- Suitable action taken to reduce greenhouse gas emissions due to energy consumption
- Use of energy efficient lamps/sensor based lamps where ever possible like corridors, toilets etc.
- use of energy efficient equipment's in laboratories/ classrooms/ canteen, this can range from air conditioners, refrigerators, condensers etc.
- Monitoring the entry of vehicles in the college in terms of their fuel efficiency/ hybrid/ battery operated vehicles.
- Promoting the use of cycle and public transport.
- To establish a system for preparing college emissions/environmental inventory.
- Creating awareness by organizing seminars, debates, activities related to climate change, environmental protection, and environmental issues.
- Promoting some projects/experiments in the education system as part of regular curriculum which is related to environmental aspects.

We intend to pursue a programme of continuous improvement in our procedures, practices and review the policy on a regular basis to evaluate continued relevance and to monitor compliance.
